## **FROM PRINCIPAL'S DESK**

Creativity is a flower which blossoms very early but it has to be tendered with great care and devotion in order to withstand the regress of the afternoon sun so that it may not wither and die out before the day is done. We are blessed with green finger to tend each creative blossom with dedication and hence our newsletter is a bouquet of myriad colour and scents.

The newsletter is a window to all the talent present in the students. It gives bent to their feelings, thoughts and ideas. There is always an internal direction in which child who keeps on guiding him/her towards his/ her distant goals. Let me take this opportunity to convey my good wishes to the staff and students for their joint venture in achieving excellence in all areas of school education.
