प्राचार्या की ओर से

केन्द्रीय विद्यालय अल्हीलाल के नवोदित कवियों व लेखकों के रूप में पल्लवित-पुष्पित होकर भाव रूपी सागर की लहरों सा उमड़ता हुआ, भाव, बुद्धि और ज्ञान की त्रिवेणी के रूप में आपको भेंट करते हुए अपार हर्ष की अनुभूति हो रही है।

छात्रों के रचना कौशल संवर्धन हेतु विद्यालय पत्रिका एक प्रयास है। हमारी कामना है कि पत्रिका के माध्यम से हमारे छात्रों की रुचि परिष्कृत होगी तथा उनके भावों की अभिव्यक्ति का मार्ग प्रशस्त होगा। मैं निःसंकोच यह उद्घोष कर सकती हूँ कि हम शिक्षक विद्यार्थियों के ज्ञान चक्षुओं को उस ज्योति की ओर घुमा सकते हैं जो उनके अन्तः में पहले से ही विद्यमान है। शिक्षा का उद्देश्य ज्ञान को विकसित करना है जो उनकी अन्तःकृत्मा में अन्तर्निहित है।

अभिव्यक्ति ईश्वरीय प्रदत्त वरदान है। विद्यालय की नव पीढ़ी के मन-मस्तिष्क में साहित्य सुकुमार भावों, विचारों और संवेदनाओं की संवाहिका यह विद्यालय पत्रिका छात्रों के लेखन प्रतिमा को पनपने उजागर करने व विकसित करने के लिए एक विस्तृत धरातल प्रदान करती है। विद्यार्थियों की प्रतिमा को निखारने व उनके व्यक्तित्व विकास को पीखने का सुअवसर प्रदान करती है। यही इस विद्यालय पत्रिका का मूल उद्देश्य है। यह पत्रिका इसी आत्म-विस्तार, आत्म विकास और आत्माभिव्यक्ति का माध्यम है।

वर्तमान वैज्ञानिक एवं कम्प्यूटर युग की आवश्यकतानुसार ज्ञान के अजय स्रोत प्रवाहित हो रहे हैं। छात्रा पूर्णरूपेण सक्षम हो, सकारात्मक सोच के साथ प्रगति के अनगिनत द्वार खोल, उन द्वारों की चौखट को संस्कृति एवं नैतिक मूल्यों सहित पार कर मंजिल को प्राप्त करें ऐसा परिवेश प्रदान करना ही केन्द्रीय विद्यालय अल्हीलाल का लक्ष्य है। विद्यालय पत्रिका आपके हाथों में सौंपते हुए अत्यन्त हर्ष हो रहा है। विद्यालय पत्रिका के माध्यम से छात्रों के मानस ही सरलतम रचनात्मक तथा भावाभिव्यक्ति को निखारने का प्रयास किया गया है। इस पत्रिका में प्रकाशित नन्हे रचनाकारों के उज्ज्वल भविष्य की कामना करती हूँ और सम्पादक मण्डल के सदस्यों तथा प्रत्यक्ष एवं परोक्ष रूप से सहयोग देने वालों का धन्यवाद व्यक्त करना अपना पुनीत कर्तव्य समझती हूँ।

अंत में, मैं केन्द्रीय विद्यालय संगठन, नई दिल्ली के अग्रणी आयुक्त श्री संतोष मल का उचित मार्ग दर्शन हेतु हृदय से आभार व्यक्त करती हूँ। इसके साथ मैं श्री एस० एस० रावत, आयुक्त केन्द्रीय विद्यालय संगठन, गुरुग्राम संभाग के दिग्दर्शन हेतु अपनी कृतज्ञता ज्ञापित करती हूँ। अगर मैं विद्यालय प्रबन्ध समिति के अध्यक्ष का मार्ग दर्शन हेतु आभार व्यक्त करूँ तो कोई अतिशयोक्ति न होगी। मेरी शुभकामनाएँ हैं कि विद्यालय दिनों-दिन प्रगति करते हुए विद्यार्थियों के सफल & सुखद भविष्य का निमित्त बने तथा विद्यार्थियों की लेखनी से निस्सृत शब्दाभिव्यक्ति सबके मन मस्तिष्क को उद्वेलित करें।

रास्ता भी हमारा है, मंजिल भी हमारी है, हर मुश्किल आसां हैं, गर कोशिश जारी है। आकाश से धरती पर, तारे ले आयेंगे, परिश्रम से जीवन में बहार ले आयेंगे।

“स्कूल के दिन”

ये स्कूल के दिन

कुछ बातें भूली हुई,

हर गलती का नया बहाना

और फिर नज़र में आना।

पेपर की पूरी रात जागना

फ़िर भी सवाल देखकर सर खुजलाना,

मौका मिला तो क्लास बंक करना

फिर दोस्तों के साथ लाईबेरी जाना।

मिल के अध्यापक की खींचातानी करना,

फिर भी मन न भरे तो आपस में लड़ना,

हर पल है एक नया सपना

आज टूटा फिर भी अपना।

इन पलों को शायद कभी भूल नहीं पाएँगे

दिन निकल चले हैं बहुत, इसलिए वापस नहीं आएँगे।

ये स्कूल के दिन इन लम्हों में जिंदगी।

जी भर के जीना

याद कर के इन पलों को, फिर जिंदगी भर मुस्कुराना।

मैं सुना रही हूँ जिनकी कहानी,
वे थे हमारे वीर जवान।
वे जहाँ शहीद हुए,
वह था कारगिल स्थान
ऐसे जवानों को

शत्-शत् प्रणाम !
करता रहेगा इतिहास सठा,
उन वीर जवानों का गुणगान !
जहाँ जन्म लिया उन्होंने,
वह है हमारा भारत देश महान!
धन्य है वे वीर जवान,

चन्द्रयान III

चन्द्रयान III एक महत्वपूर्ण अंतरिक्ष मिशन है, जिसके माध्यम से भारत अपना दूसरा कदम चांद की ओर बढ़ने जा रहा है। यह यान चंद्रमा पर मौजूद पानी और बर्फ की उपस्थिति के बारे में हमें बताएगा। इस यान को पूरी तरह भारतीय तकनीक पर तैयार किया गया है। यदि चन्द्रयान III मिशन सफल होता है तो चांद पर यान उतारने वाले देशों की सूची में भारत चौथे स्थान पर होगा। चन्द्रयान III 14 जुलाई को दोपहर 2:51 पर श्रीहरिकोटा अंतरिक्ष केंद्र से लॉन्च किया गया है। वैज्ञानिकों द्वारा यह अनुमान लगाया जा रहा है, कि 40 दिनों के भीतर चन्द्रयान III चंद्रमा की सतह पर सुरक्षित प्रवेश करेगा।

Life without Technology

There is no doubt that technology has made life easier for people. A hundred years ago, people wouldn't have imagined that today we will have so many gadgets to help us with our daily life. Today mobile phones, tablets and computers have made connecting with people around the world an easy task. We can send and receive pictures, videos and documents over the internet. Technology advanced machines like automatic washing machines, dishwashers, cleaning robots, smart televisions and various smart appliances have made life very comfortable for people. Even students are now dependent on online platforms to learn and understand their subjects better. If we want to travel, we do not use physical maps anymore but depend on GPS. However, these appliances and applications have also made people lazy people today have lost their real people, with their friends and families.

'Food for thought'

There is no problem in the world which is greater than strength of your mind.

1. When you realize that you know very little then you are fit for learning. The problems and sufferings in our life are like the tests and exams in the school of life to teach us certain lessons and to tell us where we stand.
2. The fears which we experience in the outside world come from our inside only, although it does not appear to be so. By deep contemplation you may realize that you yourself are the source of your fears.
3. Once you surrender yourself to God, there is no limit to what you can achieve.
4. You can give to another only, what is inside you. If you have anger, irritation hatred inside you, you will give same to another.

'Do you know?'

Why is the sun yellow?

The color of a star depends on how hot it is- and this, in turn, depends on its size and age. Our sun is a star of medium size and brightness with a surface temperature of about 5500°C (10000°F), which makes it yellow. As it grows older and uses up more its energy, the surface temperature will drop to about 4000°C (7200°F) and it will look red. When it has exhausted almost all of its energy, the sun will collapse and heat up briefly in a white flare.

Why is blood red?

Blood gets its color from a red chemical called hemoglobin, which is stored in red blood cells. When blood flows through the lungs, the hemoglobin collects oxygen and carries it to other parts of the body. Hemoglobin that is carrying oxygen is bright red, but after it has realized its oxygen into the body's cells as it flows past them, it becomes much darker. As a result, the blood flowing in your arteries is brighter red than the blood flowing in your veins.
